IN-DESIGN

## PROFILE

- BA(Hons) Architecture Part I - University of Brighton
- European Architecture Student Assembly National Contact of Greek-Cypriot community

Architecture has provided me with the tools and the inner power to dream, believe and most importantly plan the future of my generation. I strongly support the idea of collectivism and the opportunities it can bring in terms of change. As a young architect I believe that through an ethical minded architecture we can tackle the anthropocene and create a strong sustained future for us and the generations to come. I seek for a place in the architectural world where I can overture my ideas and skills on a shaping a new versatile future for architecture.

## ACHIEVEMENTS AND AWARDS

- Graduated with Honors
- Thesis project nominated for **'The RIBA Southeast Part One Prize'**
- 'The Chalk Architecture Award'**
- Short listed for Live Project **'Wastes and Strays pavilion of the Commons 2019'**
- Winner of **'Goodwoof Student Barkitecture Competition 2020'**
